RETURN TO PLAY AMENDMENT #1 – July 2, 2020

1. Indoor Activity:

- a. Upon review of guidelines from AHS, the Board of Directors has since reviewed this and has authorized indoor activity.
- b. All Softball Alberta Return to Play protocols will be applicable to the activity as presented on June 15, including pre-screening, completion of EAPs, and Daily Checklists, etc. Daily checklist must be provided to Softball Alberta office within 3 days.
- c. In addition to Softball Alberta RTP, the protocols set out by the facility must be adhered to by groups using the facility. Softball groups can also refer to the “Sport, physical activity and recreation” relaunch guidance available on alberta.ca/BizConnect for additional indoor measures.
- d. If teams are looking to share the facility unless they can 100% ensure social distancing, they must continue to only share the facility with members of their specific cohorts. Reminder each participant can only have one cohort.

2. Outdoor Gatherings:

- a. As of June 30, AHS has increased the number of spectators that can gather at one location from 100 to 200 people. This change does not allow any changes in the numbers you have in your cohorts or other protocols in the RTP, such as spectator should not be in the area of the players, etc.
